Dr. Joshua Lederberg  
Department of Genetics  
Stanford University School of Medicine  
Palo Alto, California

Dear Josh:

Just a note to tell you that the program chairman for the forthcoming meeting of the American Astronautical Society has agreed not to insist on a paper from you. He did suggest that we tape your talk; have it typed up for you and submit it to you for modifications. How does this strike you?

Yours sincerely,

A handwritten signature in cursive script, appearing to read "Chuck K.", is written over the typed name.

Harold P. Klein

Assistant Director for Life Sciences
